

EarthCam Headquarters

By Davis Brody Bond • May 13, 2015

Project Details

Project Name:	EarthCam Headquarters	Location:	Upper Saddle River, NJ, USA
Architect:	Davis Brody Bond	Project Types:	Office
Project Scope:	Interiors, New Construction	Shared By:	Cyprien Roy
Consultants:	Interior Designer: Spacesmith, Interior Designer: DBB	Project Status:	Concept Proposal

Project Description

From the client:

The project, led by partner Steven M. Davis, FAIA, is five times the size of [EarthCam's](#) current headquarters, making it the largest facility in the world dedicated to webcam technology and services. The campus fosters a fun, energetic work environment with indoor/outdoor café, gym and recreation areas. DBB and partner Spacesmith designed the interior, where floor to ceiling windows and skylights bring the outdoors in, and provide natural light to the open, organic work spaces throughout the building.
