

## Minnesota Vikings Turf Installation Time-Lapse Video Released

By Jerry Palleschi June 15, 2016 2:45 PM | ESPN 99.1

The screenshot displays the Minnesota Vikings website's live camera feed for U.S. Bank Stadium. At the top left is the Vikings logo. The main navigation bar includes links for NEWS, VIDEO, PHOTOS, WATCH GAMES, TEAM, SCHEDULE, U.S. BANK STADIUM, MVC, TICKETS, SHOP, and MORE+. Below this, a secondary menu offers Live Cam, Aerial View, Stadium, Interior, and Plaza Cam. The main content area shows a wide-angle view of the stadium's interior, with the field being prepared. The field is green with purple end zones and the word "VIKINGS" in white. A large "usbank stadium" banner is visible in the background. The video player interface includes a timeline from Dec 22, 2014, to Jun 15, 2016, with a current timestamp of Jun 15, 2016, 12:01pm, 70°F. Below the video are camera selection buttons for Cam 1, Cam 2, Cam 3, Cam 4, and Panorama, along with a camera icon and social media sharing options. The EarthCam Webcam Technology logo is in the bottom right corner.

IT'S TIME TO BUILD  
U.S. BANK STADIUM OPENS IN 2016

US Bank Stadium in Minneapolis is even closer to opening following the installation of the turf. A new video shows the process.

EarthCam has done a fantastic job of highlighting the building of US Bank Stadium, and now they have released a time-lapse video of the turf installation. The process took about a month to complete.

US Bank Stadium is scheduled to open on July 23rd with open houses until the first event in August. AC Milan vs. Chelsea will be the first event held inside the new facility on August 3rd. The Vikings will play in their new stadium for the first time in a preseason game against San Diego on August 28.
