

**Watch Construction For The New Hilton Cleveland Downtown Hotel With EarthCam's Time-Lapse**  
June 7, 2016 11:57 AM

The Hilton Cleveland Downtown Hotel recently celebrated its grand opening in June 1. [EarthCam's construction camera](#) documented progress for the new 32-story hotel from February 2014 to May 2016 with HD imagery and released a time-lapse movie of the entire process.

Located off Lakeside Avenue at the northwest corner of the city's historic downtown mall, the hotel boasts incredible views of Lake Erie and the dynamic city skyline. Turner Construction, Construction Manager for the project, relied on EarthCam's webcam technology to document each phase of the 27-month process, which can be seen in just one minute. Time-Lapse Courtesy of EarthCam.
