

Bomanite Alloy Installation at EarthCam Headquarters

September 27, 2017 / Upper Saddle River, NJ

Watch the Beyond Concrete Team install a Bomanite Exposed Aggregate Alloy System at the new [EarthCam Headquarters](#) located in Northern New Jersey.

EarthCam is the global leader in providing webcam content, technology and services. Founded in 1996, EarthCam exists to encourage exploration, foster discovery and connect people through innovative live camera technology.

Above is Ira Goldberg (waving at the camera) installing Bomanite Alloy at EarthCam Headquarters. The installation can be viewed in real-time live or time-lapse from the start at <https://www.earthcamhq.com/>
