

## Live webcam of Zoo Miami's meerkat exhibit

By Diane Ako • July 1, 2018

EarthCam and Zoo Miami teamed up to share views of the zoo's meerkats, and sometimes even a surprise viewing of their fennec foxes, with a new live streaming webcam! Watch these cute critters as they explore their exhibit and burrow the day away. There are two meerkats in the exhibit now, but stay tuned, because this family will be growing soon!

Zoo Miami is the largest and oldest zoological garden in Florida and the only sub-tropical zoo in the continental United States. Here's the link to the meerkats: <https://www.earthcam.com/usa/florida/miami/meerkat/?cam=meerkat>

I think it's so cute! When I checked in, there was one meerkat tottering around the exhibit, which was full of pink ribbons and tissue, like they had a birthday party or something. It's weird how watching one animal walk around is so enchanting.

EarthCam delivers webcam content, technology and services. Founded in 1996, EarthCam provides live streaming video and time-lapse construction cameras for corporate, tourism and government clients in major cities around the world.
