It has been nearly 14 years since the events of September 11th, 2001, destroyed the Twin Towers in New York City. But now, after 11 years, the buildings' replacement has opened in lower Manhattan.

One World Trade Center, or the “Freedom Tower,” is now the tallest building in the Western Hemisphere and the fourth tallest building in the world.

The video above shows the construction project from start to finish in just two minutes, and it may just bring a tear to your eye.

Never forget.
