

Travel Webcam of the Week: Tokyo Cam

Johnny Jet October 19, 2015

The screenshot shows the EarthCam interface for the Tokyo Cam. The main window displays a live HD view of a canal in Chuo City, Tokyo, with modern buildings and the Tokyo Tower visible in the background. The interface includes a navigation bar at the top with 'EarthCam', 'TOKYO CAM', and 'Help'. Below the main view, there are statistics for '5 November 2015 23:53' and '4895 Likes'. A 'RELATED CAMS' section features thumbnails for Tokyo, JP; Boracay Island, PH; Boracay, PH; Bali, IDN; and Bali, IDN. A section titled 'A Taste of Tokyo!' includes a map of Tokyo and a description: 'EarthCam and TokyoSky.com are proud to present a unique view of the canal surrounding Chuo City, a ward near the center of Tokyo. Tokyo is known as one of the world's major "global cities"'. The text 'The Tokyo Canal Live' is prominently displayed on the right side of the interface.
