

Construction Watch: 241 Fifth Avenue time-lapse video shows entire building construction

(Excerpt from [original article](#))

February 25, 2013

Construction of the new condo development Two Forty One Fifth (241 Fifth Avenue between 27th and 28th Street) is very close to completion, and CORE sent us a pretty cool video showing the creation of the building from beginning until it's current state. This 20-story new condo development is a block up from the Grand Madison and 1.5 blocks from Madison Square Park. Sales are expected to start in the first half of 2013.
