SEASIDE HEIGHTS — Talk about roller coaster rides...

Thursday's weather in New Jersey was one giant roller coaster ride — with lots of ups in the form of sunny skies and lots of downs with clusters of heavy rain storms rocking the Shore.

In Seaside Heights, thanks to a website called [EarthCam.com](http://EarthCam.com), curious Internet users were able to get a glimpse of the crazy weather conditions on the boardwalk, hour by hour.

The photo gallery above shows what the Seaside Heights boardwalk looked like at various times throughout the day, as the skies went from sunny in the early morning to dark and rainy in the late morning, then sunny in the late afternoon and dark and rainy again before darkness fell.
