

## The tower celebrates 40 years

Author: Cindy Adriana Morales Date: 07/12/2016

Between 1976 and 2007 the iconic CN Tower in Toronto was the highest in the world, today its only 553.33 meters high place it as the highest of America 'was then displaced from the opening of the Burj Khalifa other as the Tokyo Sky Tree the Guangzhou TV Tower and Makkah Royal Clock Tower Hotel-.

It opened to the public on June 26, 1976 by the Canadian National Railway, during his 40 years there will be new exhibits and displays during the trip just over seven minutes elevators, learn about their history and live interactive experiences to discover how it works today the tower.

To enjoy the most:

1. Get inspired before going

In the [cntower.ca](http://cntower.ca) web you can see a video in high definition and with [EarthCam technology](#) that will show live views from the top of the tower.

2. Purchase the Toronto CityPASS

You can have a 43% discount on admission to the tower and other attractions, in addition to omit most of the rows. They are valid for nine days from the first day of use. You can buy it in [cntower.ca/citypass](http://cntower.ca/citypass) or at the box office of the CN Tower. It costs 72 Canadian dollars.

2. Save time by buying 24 hours in advance

Print your tickets at home 24 hours before use either the same day from your cell phone. This will avoid the long lines and you will go directly to the elevator, where the bar code is displayed.

3. unmissable visits

Rocket to the top. It is a 58-second thrill ride aboard front glass elevators. With spectacular views of up to 160 kilometers. Once here you can walk around the three observation levels including the lookout, the famous glass floor outdoor (SkyTerrace and SkyPod).

EdgeWalk. It is nothing less than the walk to the highest outdoor world in a building, according to the Guinness World Record.

Tall kitchen. Enjoy the award-winning Canadian cuisine at its restaurant located at 360 to 351 meters high, it has a rotation cycle of 72 minutes.
