

Timelapse video shows nine years of 9/11 reconstruction (1:37)

Sept. 11 - Marking the 12th anniversary of the 9/11 attacks, webcam company [EarthCam](#) has released a timelapse video showing the nine year construction of One World Trade Center in lower Manhattan. The company says the video is made up of hundreds of thousands of images captured from 35 different angles by high definition cameras. Rough Cut (no reporter narration).
