

Sugarmont Apartments: New Progress Pictures

December 12, 2016 in Project Progress

We have just gained access to a new [EarthCam](#) time lapse camera that is set up for Sugarmont Apartments, a large project with Boulder Ventures located in the Sugar House area of Salt Lake City. This project will consist of 352 units over 2.86 acres with a pedestrian plaza and three floors of wrapped parking. Although there isn't much to see yet, crews have been doing a lot of demolition, taking down a building that previously stood at this location and are moving around lots of earth to prepare for construction to begin. Be sure to check back with this blog for updates as this project progresses.
