

This 11-Year Time-Lapse Video Shows The World Trade Center Being Rebuilt Brick By Brick! And It's Awesome!

Anjali Bisaria

June 1, 2015

Watch how One World Trade Center was built over 11 years. From day one of construction in October 2004 to last day of completion on Memorial Day 2015. Thousands of high-definition photographs were taken and then hand-edited to make this [special edition movie](#).

This video was released by [Earth Cam](#) to recognize the official opening of One World Observatory in NYC.
